lots of updates and changes:

updated North Texas appendix; including the multi-disciplinary and lessons learned PLEASE CHECK THEM OVER I am sure there will be changes when we get together. :- )

I worked through the 'nancy' comments (that I can from home) including the seismicity error consistency check

Ran spell check, so Ken or Susie you may want to change "well test" back to "welltest", or not.

Still need to update the figure docs.

I haven't checked hyperlinks or verified all the citations, etc. I figure I can do that after it goes to the working group.
